

Models of the Atom Mobile Project

You will be given five colored note cards to create this mobile, one for each of the following models: **Dalton Model, Thomson Model, Rutherford Model, Bohr Model, Electron Cloud Model.**

Each note card should include the following information on the unlined side:

- Drawing or picture of model
- Name of model

On the lined side:

- Name of model
- Name of scientist(s)
- Description of model including its structure
- Experiment or discovery that led to the model
- Advances from previous model
- Year of model
